

2022 Street Improvements Project

Work Area

This project encompasses a large area of town and work will progress block to block. It is very common on these types of projects that area residents (especially children) become quite curious about the work the Contractor is performing. We ask that you please be respectful of and stay well clear of construction zones. Many hazards and dangers exist from heavy machinery, trenches, loose material, confined spaces, etc. and often times are not recognizable by the general public. Any direction from the Contractor regarding safety must be heeded; likewise, if you observe an unsafe condition, please report it to the Construction Representative immediately.
