Notice of Roadway Closure & Construction Start Up W Main St

Ryan Contracting has the opportunity to bring in additional resources to address the added watermain work and further support overall project progress. As a result, W Main Street from Meridian Street through the Willow Street intersection has been advanced in the schedule. **Road closure and the start of the construction in this area is now planned to begin on Tuesday, May 30th.**

- The intersection of Willow St and W Main St will be closed to vehicle traffic.
- No work is planned within the intersection of Meridian and Main St at this time and intersection will remain fully open from the south and east directions.

Initial operations within W Main St will include pavement removal and underground utility work. To allow for the full replacement of the permanent water main, the Contractor is required to setup a temporary water system. The temporary system ensures a safe water supply during the construction and consists of a line of blue pipes laid on the ground surface. From the main line of blue pipes smaller temporary water service lines are then run and connected to each existing service line near the curb stop outside the building. This system will provide your home/business with continual water while the new water main is replaced within the street. The Contractor plans to start installation of this temporary water system this week in preparation to start converting properties next week. All properties will receive further notice no less than 24-hours in advance of any planned water shutdowns or interruptions.

All businesses within the work zone will remain open and accessible by foot traffic during construction!

All mail will continue to be delivered as normal during construction.

During construction, the contractor will be responsible for maintaining all garbage and recycling services. Please bring your cans to edge of your property as you normally would on your respective pickup day and the contractor will ensure the containers are picked up.

Weekly Construction Meeting

Weekly construction meetings will be held in person every Wednesday at 8:00 am in the Council Chambers at City Hall, 218 Meridian St N. The first part of each meeting is open to the public for discussion on schedule and construction concerns.
