

HEALTHY CORRIDOR SURVEY

The City of Brooklyn Center is reimagining the future of Brooklyn Boulevard, and pursuing an approach to create a “Healthy Corridor”. Healthy corridors are places that prioritize and promote the health of those who live, work, and visit the corridor. This is done through a careful combination of health-promoting design features and development practices.

As the City begins this process, it first hopes to better understand the current health and activity of its residents. With this information, the City can better guide the future of Brooklyn Boulevard in a way that benefits the health of *all* people

Please note, this survey is voluntary, anonymous, and cannot be used to identify you.

1. How often do you exercise each week?

2. If you do exercise, what are your 2 or 3 favorite activities?

3. What percentage of your weekly trips are taken by car?

4. How easy is it for you to get healthy and affordable food?

5. How much time each week do you spend in a park or green space?

6. How well do you feel you can make all needed bill payments each month (things like rent or mortgage, credit card payments, and car payments)?

7. How would you rate the affordability of the place you live?

8. How connected do you feel to the Brooklyn Center community?

9. What are 1 or 2 things that Brooklyn Center could provide to promote better health of its residents?

HEALTHY CORRIDOR SURVEY

The following questions are to help the City identify health-promoting opportunities along Brooklyn Boulevard.

Please note, this survey is voluntary, anonymous, and cannot be used to identify you.

10. How much time each week do you currently spend on Brooklyn Boulevard (not including driving)
