

WATER TREATMENT FACILITY EXPANSION

CONSTRUCTION TIMELINE

WATER TREATMENT FACILITY

Minor construction preparation work for the water treatment facility expansion is expected to begin the week of December 7. This includes marking underground utilities, removing selected trees north of the facility, installing the construction trailer, and other minor work. After this preparation work is complete, crews will begin the water treatment facility expansion construction. This is anticipated to start in January 2021. The expansion is scheduled to be operational by the summer of 2022.

Minor traffic impacts may be necessary during the project. Residents will receive a paper notice at their door before any major impacts occur.

WATERMAIN AND WELL 5 CONSTRUCTION

Watermain construction is scheduled to begin in the spring of 2021 and last until fall of 2021. Minor preparation work will occur before this time, including marking underground utilities and tree removals at the Well 5 site. Minor traffic impacts may be necessary during the project., but no detours are anticipated. Residents will receive a paper notice at their door before any major impacts occur.

Well 5 construction will also begin in the spring of 2021 and last until fall of 2021. No impacts to residents are anticipated at this time.

RESIDENT COMMUNICATIONS

Notices will be distributed to residents for any specific impacts that may occur, and weekly updates will be posted on the project website throughout construction. To have these updates sent directly to your inbox, sign up for email updates on the website. If you have any questions, feel free to call the project hotline or send us an email.
