

# County Road 70 Expansion Project

County Road 70, looking east from Holyoke Ave

## Construction Begins Mid-July!

County Road 70 Expansion Project construction was awarded to Hoffman Construction Company and is anticipated to begin mid-July with the extension of 220th St. Construction on the future eastbound lanes of County Road 70 will begin soon after (see reverse). Two-way traffic will be maintained on the existing County Road 70 during this time. Crews are scheduled to begin on the east end of the project area and work their way west. For more information on construction staging, schedule and roadway impacts stay tuned to the project website and join us for the open house!

## Project Purpose:

Dakota County, in partnership with the City of Lakeville, is planning for the reconstruction of County Road 70 from Kensington Boulevard/Kenrick Avenue to Cedar Avenue. Expansion to a four-lane divided roadway will address safety concerns and congestion on this critical roadway that provides connections to established industrial parks and future high-growth areas.

## Stay involved

For more information and updates on the project, please visit the project website: [countyroad70expansion.com](http://countyroad70expansion.com) or search "County Road 70" on the Dakota County website: [dakotacounty.us](http://dakotacounty.us). Don't forget to sign up for email updates!
