Project Update

During the week of September 19th, crews began sewer main installation on Main Street. Crews will continue to work on the sewer main installation next week heading south on Main Street. Next week the contractor will be hooking up temporary water to your home. After temporary water is hooked up, a crew will begin installing watermain at the intersection of Main Street and 2nd Avenue.

The contractor will likely be installing sanitary sewer south of 4th Avenue later in the week next week. The contractor will do the best to maintain access to the houses south of 4th Avenue, but access may be restricted during utility installation. Please park on nearby side streets if you do not have access.

For temp water system: Connection to temporary water system will likely require contractor to enter your home. Please contact Lane Welch at [507-226-3469](tel:507-226-3469) if you have concerns.

Reminder: Once utility installation starts, there may be intermittent short-term water service interruptions. You will be contacted prior to any planned shut-downs.

Contacts

If you have questions or concerns at any time, please contact Lane at 507-226-3469 or lane.welch@bolton-menk.com.

Additional Work

Some property owners have requested additional concrete work and service replacement at the property owner's expense. If you are interested in having additional work done, please contact Lane at the number or email listed above.
