

## CONSTRUCTION UPDATE

Work is scheduled to begin in Stage C (Belmont Street from Lincoln Street to CR 47) on Monday May 20<sup>th</sup>.

During this time, the road will be closed to thru traffic, but will remain open to residents accessing their homes via a dirt roadway surface. Access may be limited during the construction work day, but will be reopened by each night. Utilization of alley parking, if possible, is recommended. Please notify construction workers if you have special requests or need access and accommodations can be made. The contractor will maintain the roadway to the best extent possible. *Please note that rainy weather may reduce the dirt roadway quality.*

In order to complete watermain work in your stage, your property will be hooked up to a temporary water system. The contractor will be coordinating with you in the coming week(s) to hook up your property to the temporary water system.

During construction, residents will be notified of significant construction activities with a paper notice at their door. Weekly updates will also be provided on the project website and sent out to those signed up for project email updates. Be sure to bookmark the website and sign up for weekly email updates:
