

City of Hampton 2019 Street & Utility Improvements July 29, 2019

CONSTRUCTION UPDATE

McNamara Construction is scheduled to begin paving the roadway base, followed by driveways, on all stages of the project beginning on Wednesday 7/31.

Please have all vehicles removed from the street by 7 am.

It is anticipated that the base layer of asphalt will be nearly completed on Wednesday, 7/31. The remaining base paving will be completed, along with asphalt driveways on the project, on Thursday 8/1, weather dependent. Access will be restored to all driveways on the project by the end of the day, Thursday.

During paving, you will have limited or no access to your driveway. The asphalt will typically be installed at temperatures between 275° F and 350° F. Please have children stay away from the asphalt until it cools, which will be after it's rolled the same day. If you need to drive over the fresh asphalt, please keep your speed low to avoid spinning your tires and harsh turning motions.

Access is anticipated to be restored shortly after the asphalt is paved (within a couple hours) so the roadway and driveways can be used the same evening they are installed.

Parking will not be allowed in the project area during working hours (7 am to 7 pm).

Please utilize alleys, if available, and adjacent blocks to park your vehicles.

Thank you for your continual patience and cooperation throughout the process of improving your street and utilities!

-  STAGE A
-  STAGE B
-  STAGE C

We apologize for any inconvenience this may cause you. If you have any questions or concerns during construction, please call **Brad Fisher at (612) 759-7240**.
