

U.S. Highway 10/169 Improvement Project

Generalized Feedback from the Public Open House

- 

General Comments

 - Appreciation to the City for undertaking large project that will provide greatly needed improvements
 - The oversized maps and video at open house were very helpful for visualizing improvements
 - Many people liked addition of roundabouts, while some felt that roundabouts will not support traffic demands
- 

Impacts & Construction

 - Desire for more information about construction staging and access during construction
 - Desire for more information about property impacts process and timeline
 - Concern about difficulty getting around during construction
 - Impressed that property impacts are relatively minimal compared to project size
- 

Project Aesthetics

 - Preference for red brick or red brick/limestone options for highway bridge walls
 - Desire for river or similar theme for all highway bridge walls
 - Question about if the public can vote for themes for highway bridge walls
- 

Bicyclists & Pedestrians

 - The changes will greatly improve safety for people walking or biking from one side of Highway 10/169 to the other
 - The new options for walking will be very helpful

Public Open House
