

# 2022 Foley Road, Isle Drive, and Forthun Road Improvement Project Newsletter

MAY 25, 2022

## Construction of:

- Sanitary Sewer
- Watermain
- Storm Sewer
- Street Reconstruction
- Street Reclamation
- Trail Reconstruction

## Construction Duration:

Start: May 31, 2022  
Finish: October 28, 2022

## Project Engineer:

Bryan Drown, P.E.  
Cell: 218-821-5242  
E-mail: [bryan.drown@bolton-menk.com](mailto:bryan.drown@bolton-menk.com)

Darin Evavold  
Construction Representative  
Cell Phone: 320-293-6231  
E-mail: [darin.evavold@bolton-menk.com](mailto:darin.evavold@bolton-menk.com)

## Contractor:

RL Larsen Excavating, Inc.  
2255 12<sup>th</sup> Street SE  
St. Cloud, MN 56304

## Project Superintendent:

Matt John, P.E.  
Cell: 218-405-0280  
E-mail: [mattj@rlarsoninc.com](mailto:mattj@rlarsoninc.com)

## Overview

The City of Baxter is undertaking a construction project to install city utilities and improve the city streets and trails on Foley Road from Highland Scenic Road to Elder Drive and at the Isle Drive and Forthun Road intersection. The project includes the installation of the sanitary sewer, watermain, storm sewer, street and trail construction, and mini-roundabout.

## Dates

Competitive bids for the work were received on January 20, 2022 and the project was awarded to RL Larson Excavating from St. Cloud, Minnesota on April 6, 2026.

RL Larson Excavating is currently scheduled to begin work on or after May 31st. The contract completion date for the work is October 28th.

R.L. Larson is planning the first week of June to install traffic control and erosion control measures such as silt fence. This will be followed with clearing and grubbing of trees.

The initial schedule has pavement reclaiming, pavement removal, and grading beginning on June 8<sup>th</sup>. RL Larson will be constructing the mini roundabout at Isle Drive and Forthun Road first and hauling excess material from Isle Drive and Forthun Road to Foley Road and grading on Foley Road through the middle of July.

As the project progresses updates regarding planned construction for the remaining areas will be provided.

## Access

The Contractor has planned working hours of 7:00 a.m. to 7:00 p.m. Monday thru Friday. During underground utility installations pipe is planned to be constructed until 7:00 p.m. and backfilling of trenches completed thereafter.

Local traffic will be allowed to use the affected streets to gain access to businesses and their homes during construction. There may be periods when you will not have access to your driveway when utility trenches are open directly in front of your property. The Contractor and Inspector will coordinate with property owners when access will be limited to their property.

The Contractor will work with the postmaster and garbage haulers to establish temporary locations during construction. You will be contacted in the future regarding location and timing for these services during construction. Access will be maintained for emergency vehicles.

## Contacts

### Contractor

Matt John, from R.L. Larson Excavating will be the project manager for the contractor. He can be reached through his cell phone at 218-405-0280.

### Engineer

**The consulting engineer for the project is Bolton & Menk, Inc. - We encourage those with project concerns to direct them through the engineering contacts.**

Darin Evalvold from Bolton & Menk will be on site representing the City during construction. He will be providing construction observation and coordination. You may call him at 320-293-6231 or e-mail him at [darin.evalvold@bolton-menk.com](mailto:darin.evalvold@bolton-menk.com) with any questions or comments you may have.

Bryan Drown from Bolton & Menk is the project engineer for the City. You may call Bryan at 218-821-5242, or e-mail him at [bryan.drown@bolton-menk.com](mailto:bryan.drown@bolton-menk.com).

## Construction

It is very common on these types of projects that area residents (especially children) become quite curious about the work the Contractor is performing. We ask that you please be respectful of and stay well clear of construction zones. Many hazards and dangers exist from heavy machinery, trenches, loose material, confined spaces, hot asphalt, etc. and often times are not recognizable by the general public. The Contractor has responsibility to ensure safety on the project and within the construction area. Any direction from the Contractor regarding safety must be heeded; likewise if you observe an unsafe condition please report it to the Alex immediately.

Individuals present on the construction site must also follow guidance from the Centers for Disease Control (CDC) and Minnesota Department of Health related to COVID-19. The Contractor and Engineer have protocols in place to adhere to hygiene and social distancing recommendations.

## Updates

Informational newsletters, such as this one, will be provided to you periodically throughout the project. If you have questions or concerns at any time, please contact Bryan or Darin at the phone number or email address listed above.

Weekly construction meetings will be held when construction begins. Meetings will be held each Wednesday at 2:00 p.m. Weekly construction meetings will be held on site and are open to property owners. If there is inclement weather meeting will be held at the Baxter Public Works Facility.

Bolton & Menk is developing an e-mail distribution list for project updates. Please e-mail Bryan Drown at [bryan.drown@bolton-menk.com](mailto:bryan.drown@bolton-menk.com) with the e-mail address(es) you would like updates sent to.

Bolton & Menk has developed a project website where construction updates will be provided. Please check the website for updates after the project has begun. A link to the website will also be provided on the City of Baxter website.

The project website address is: <https://clients.bolton-menk.com/inglewooddrive/>

### **Service Line Connections**

New sewer and water will be constructed on Foley Road near the extension of Inglewood Drive. Sewer and water services will be constructed to your property line as part of the city project. Homeowners will be responsible for hiring a contractor to abandon or remove the existing septic system and make the sewer and water connections between the property line and the house. Attached please find a current list of excavating contractors who are licensed and registered in the City of Baxter to complete this work.

Please contact, or have your excavating contractor contact, Bryan Drown at 218-821-5242 to coordinate your desired location of sewer and water service line locations.

### **Private Improvements in Right-of-Way**

If you have improvements such as landscaping, retaining walls, shrubs, bushes, flowers, sheds, irrigation systems, etc. in the right-of-way, it is not the contractor's responsibility to work around them. The property owner is responsible for securing these private improvements and moving them if necessary, to allow the project to be constructed. Neither the contractor nor City is responsible for damages incurred to private improvements in the right-of-way. Any underground improvements, such as irrigation lines and heads, dog fences, etc., should be located and marked so they are readily visible.
