Re: 2020 Pavement Rehabilitation Project
City of Jordan, Minnesota

Dear Property Owner:

The City of Jordan is planning road work on the street in front of your property during the summer of 2020. A map of the project area is included on the back of this letter. This letter is simply intended to inform you of the upcoming project, provide contact information should you have additional questions at this time, and distribute a questionnaire for early resident input. The City will be reviewing the existing site conditions and confirming the scope of the project over the coming months. During this time, you may see individuals in the street collecting pavement and soils samples or Bolton & Menk staff using survey equipment or conducting drone flights to collect data on the existing infrastructure conditions.

The project scope is limited to resurfacing of the street pavement, replacement of concrete pedestrian ramps for compliance with the Americans with Disabilities Act (ADA), and partial replacement of broken concrete curb/gutter panels. Residents are asked to provide input on the attached questionnaire to enable the City to confirm the project scope of work. With the information from the questionnaire, the City may consider additional improvements if they are found to be cost effective to implement with the street maintenance work.

We respectfully request residents return the attached questionnaire to City Hall or to mikewa@bolton-menk.com by December 13th. Additional information will be provided in the Spring regarding the anticipated project schedule and what residents can expect during construction. Should you have any questions about the project at this time, please contact Mike Waltman per his information below.

Sincerely,

Mike J. Waltman, P.E.
City Engineer

2020 PAVEMENT REHABILITATION PROJECT – PROJECT QUESTIONNAIRE

1. DRAINAGE:

_____ I have observed standing water in the street or my front yard after a significant rain.

It is located at: _____

2. IRRIGATION SYSTEM / INVISIBLE FENCE

Should some of the partial curb panels to be replaced be located in front of your property, it is helpful to identify prior to construction whether a property has an irrigation system or “invisible” buried pet fence. If this applies to your property, please be sure to include an address at the end of this questionnaire.

_____ Yes, we have an irrigation system.

_____ Yes, we have an invisible pet fence.

3. GENERAL COMMENTS / QUESTIONS

Please describe any other issues you have observed with the public infrastructure in the neighborhood or other suggestions you would like considered as part of this project:

The following information is optional but is useful if we have a question about your responses:

Name: _____ Phone No.: _____

Address: _____

THANK YOU FOR YOUR RESPONSE!

PLEASE RETURN TO CITY HALL (210 FIRST ST E, JORDAN MN 55352) OR
MIKEWA@BOLTON-MENK.COM BY: DECEMBER 13TH
