Project Overview

Descripción del Proyecto

HWY 169 / 282 / CH 9
INTERCHANGE
OPEN HOUSE

Scott County, with the City of Jordan and Minnesota Department of Transportation, have been planning for several roadway infrastructure improvements on and along Highway 169 and adjacent roadways in the City of Jordan. This includes the construction of an interchange at Hwy 169 / 282 / CH 9. This project will address safety and mobility needs based on current traffic volumes while considering expandability when needed for future development and traffic growth.

El condado de Scott, con la ciudad de Jordan y el MnDOT, han estado planificando varias mejoras de infraestructura vial en ya lo largo de la autopista 169 y las carreteras adyacentes en la ciudad de Jordan. Esto incluye la construcción de un intercambio en carretera 169/282/CH 9. Este proyecto tiene como objetivo abordar los volúmenes de tráfico actuales mientras se considera la capacidad de expansión para desarrollos futuros.

PROJECT GOALS:

OBJETIVOS DEL PROYECTO:

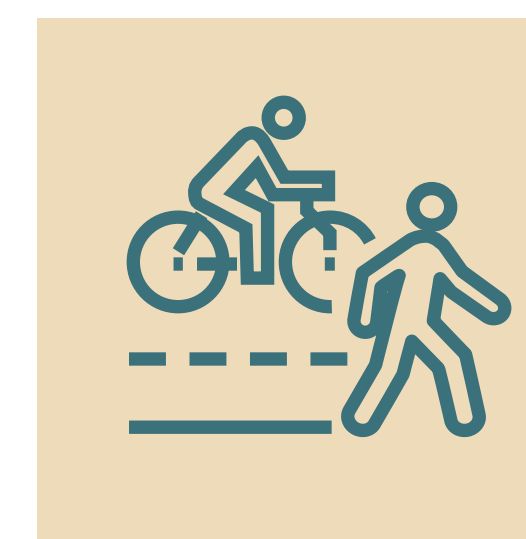

Improve safety for all users

Mejorar la seguridad para todos los usuarios

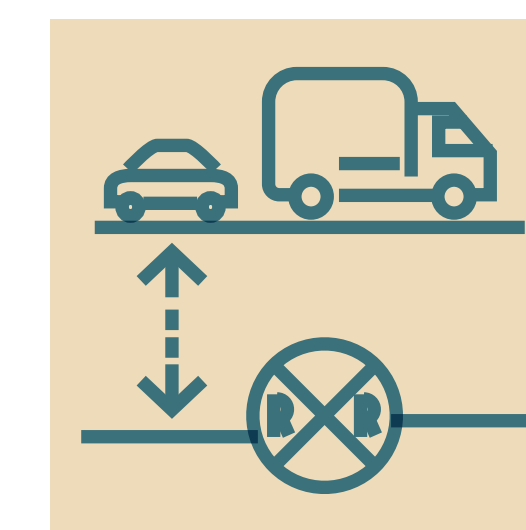

Accommodate truck movements

Acomodar los movimientos de camiones

Improve pedestrian and
bicycle connectivity

Grade separated railroad crossing

Cruce de ferrocarril a desnivel

Grade separated Hwy 169 from 282 / CH 9

Grado separado carretera 169 de 282 / CH 9

 STAGE 4
-2026

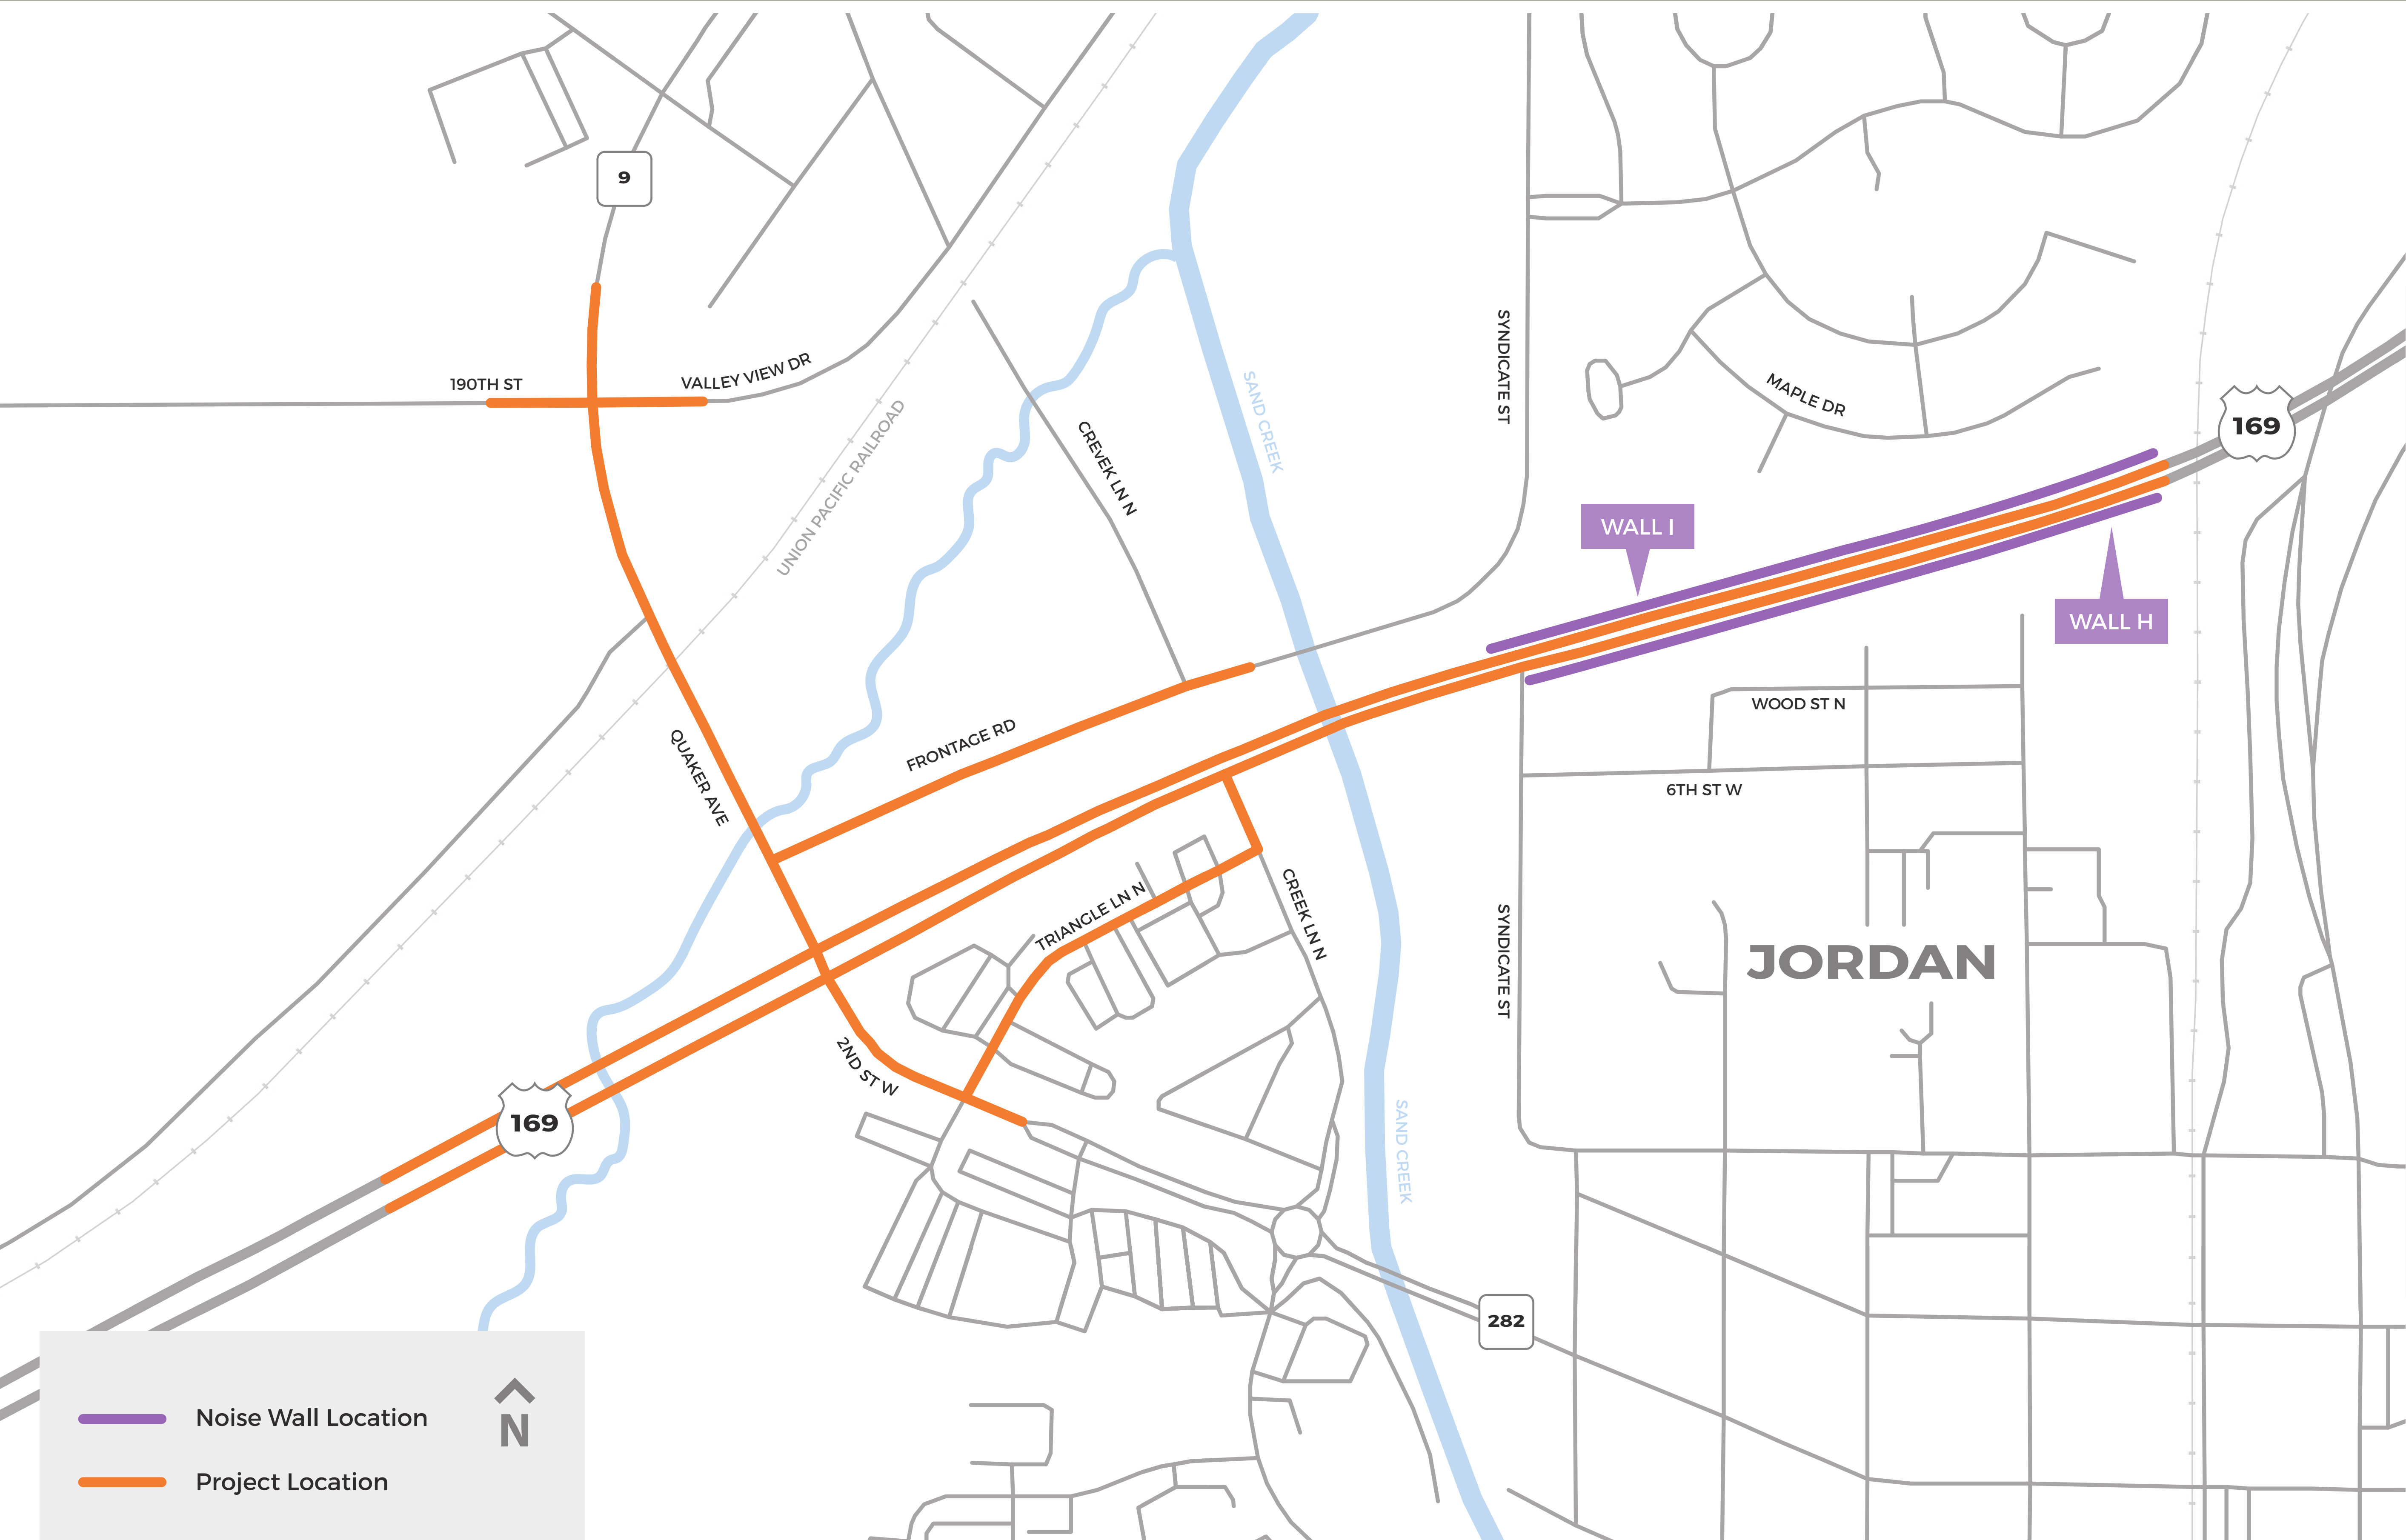

Stage 4: Additional median and finishing work on TH 169. Traffic maintained as a single lane in each direction on TH 169. CSAH 9/ TH 282 overpass open to traffic.

Noise Wall

Muro de ruido

HWY 169 / 282 / CH 9
INTERCHANGE
OPEN HOUSE

- The project completed field measurements, modeled existing and future noise levels, identified noise impacts, and evaluated mitigation measures.
- Community members on the north and south side voted to determine if the two proposed noise walls should be included in the project.
- More than fifty percent of votes were in favor of the noise walls, providing approval for including them in this project.
