

# 2025 Street Improvements CONSTRUCTION NOTICE

**Project Overview:** Nadeau Road, Stoneridge Court, and Maple Leaf Court, as shown on the enclosed map, are scheduled for improvements. The scope of improvements varies by project area but generally include minor utility improvements and roadway rehabilitation.

Construction is anticipated to occur between June and August with minor wrap-up work occurring after Labor Day. Access to properties will be maintained throughout construction. Interruptions to regular access will be communicated to residents and property owners to the greatest extent possible. Please use caution when driving or walking in the work zone; safety for residents and construction crews is the number one priority.

**Schedule:** Residents may notice private utility improvements between now and July. This may cause short interruptions in some of your private services such as cable and phone. Roadway construction is expected to begin after June 16th. Schedule updates will be provided every Friday for those that sign up for construction updates through the project website.

**Impacts:** No full roadway closures are expected, but there may be some delays as crews work on certain parts of the roadway. There may also be water service interruptions during watermain, but residents will receive a paper notice at their door with more information prior to this work taking place.

## How do I stay informed during construction?
