Project update

Stage 1

Crews continued to work on soil corrections encountered during the installation of the large storm sewer pipe. This work is anticipated to continue next week. We apologize for the delay in this area, and we appreciate your patience as the crews address this unforeseen situation.

Stage 2

Crews began box culvert work at the at the west end of Stage 2. This work is anticipated to conclude today or tomorrow. Once this work is complete, crews will begin working on the east half of stage two. During this time, detours signs will be re-routed to direct homeowners to route 2B to access their home (see page 3 for route).

Access information

Stage 1

Stage 1 is closed to all traffic. Those who live north of Highway 13 in the Stage 1 area are asked to travel straight through the Vergus intersection for access in and out of their neighborhood. Please refer to the map on page 3 for available routes.

Stage 2

Stage 2 is closed to all traffic except for residents or businesses with a driveway directly off Highway 13. Please refer to the map on page 3 for available routes. Access to driveways off of Hwy 13 will vary during the construction of Stage 2. Residents will begin by using route 2A to access driveway for about the first two weeks. The route will then shift to 2B, and access will be maintained from the south.

For the safety of the workers and yourself, please do not drive in either the Stage 1 or Stage 2 areas and use alternate routes identified in the access map on page three.

Stay informed

Weekly updates will be posted on the project website and sent out to those subscribed for project updates. If you have any concerns during construction, please reach out to the project email or hotline listed below. Be sure to sign up for project updates on the website at www.movingforward13-21.com.
