UNDER TRAFFIC
-  **STAGE 4:**
MID SEPT-OCT
-  **CONSTRUCT**
UNDER TRAFFIC
-  **LOCAL ACCESS**
ROUTES

**Stage 2 and
Stage 4 begin in
September!**

Stage 2 Details

Due to good project progress and the availability of additional crews, construction is anticipated to advance into Stage 2 on September 3. This includes the south leg of the Highway 13/County Highway 21 intersection, and County Highway 21 between Duluth Ave and Main Ave. County Highway 21 from Duluth Ave to West Ave will be open to traffic on a gravel surface with some construction activities, as shown with the red dashed line above. Drivers will be able to cross both Highway 13 and County Highway 21 via Duluth Ave during Stage 2. Stage 2 will last until November.

Stage 4 Details

In order to consolidate work in the area, MnDOT will advance to Stage 4 in mid-September. This includes Highway 13 from Franklin Trail to County Road 12. Access will be maintained from County Road 12 to Panama Ave for local access. Work in Stage 4 will last into October.
