CONTACT

The 2018 Street Improvements Project includes the reconstruction of various streets, storm sewer, and watermain throughout the City of Orono. This includes milling existing pavement sections and overlaying new bituminous pavement on Vine Place as well as Lyric Avenue from Livingston Avenue to Blaine Avenue. Additionally, mill and overlay work with storm sewer replacement and guardrail installation will be performed on Leaf Street from Bayside Road to Watertown Road and Forest Lake Landing. Work to be completed on West Lafayette Road includes watermain and water service replacement, reclamation of the bituminous surface, and construction of curb and gutter in some areas. Construction activities on Wildhurst Trail and Minnetonka Highlands Lane include storm sewer construction, curb and gutter and guardrail or portions of the roadway, and reclamation of the bituminous surface. Lastly, the northern end of Linden Lane will be realigned with some culvert replacement as well.

If you have specific access concerns or questions that need to be addressed, please do not hesitate to contact the project personnel listed at the end.

WEEK OF JULY 2

Unfortunately, due to the holiday and other scheduling conflicts, the contractor used this week to tie up loose ends so they can move adequately on the 2018 Streets job going forward.

If you have specific questions regarding scheduling on your street, please feel free to utilize the project hotline at the end of this update as we progress.

**Please note that all scheduling claims are subject to change.*

WEEK OF JULY 9

Watermain connections on West Lafayette will be made including service replacement beginning on Monday the 9th and will continue throughout the week. Additionally, Leaf Street will be milled on the 9th. Patching on Leaf Street in designated areas will follow shortly thereafter.
