

CITY OF ORONO: OLD CRYSTAL BAY ROAD

August 9, 2018

OVERVIEW

PROGRESS

ACCESS

UPDATES

CONTACT

Old Crystal Bay Road, from Wayzata Boulevard to 6th Avenue North, is set to be fully reconstructed, widened, with turn lane additions to help improve traffic flow along the corridor. Work includes watermain replacement, storm sewer replacement and improvements, and full reconstruction of the pavement surface. Curb and gutter will be added to portions of the roadway along with sections of a center median and street lighting. Additionally, entrances to school parking areas will be reconstructed to better accommodate traffic flow.

**Please note that all scheduling claims are subject to change.*

WEEK OF AUGUST 6

The first base course of asphalt was paved on the north half of the job on Thursday and Friday. Final watermain connections are scheduled for Friday. Electric services were transitioned to the new power poles. The roadway subcutting is scheduled for completion on Friday.

Thank you for your cooperation with traffic flow. The next few weeks will be congested as crews work to finish before the school year begins. Stay tuned for further updates regarding access needs.

WEEK OF AUGUST 13

The contractor will continue grading from the new frontage road, south, to Kelley Parkway. Small utilities will be moved to the new power poles and the old poles removed which will allow the contractor to finish the storm sewer work on the project.

Additional concrete work is expected sometime during the week. Grading of trail connections, parking lot areas and final removals are also scheduled for next week.

Most of next week, access to all facilities should come from CSAH 6, as much of the work will be done in the area of the Elementary School and to the south. Please use parking lots as much as possible to navigate around construction traffic. Thank you again for your cooperation.

If you have specific access concerns or questions that need to be addressed, please do not hesitate to contact the project hotline at the number below.
