

CITY OF ORONO: OLD CRYSTAL BAY ROAD

August 24, 2018

OVERVIEW

PROGRESS

ACCESS

UPDATES

CONTACT

Old Crystal Bay Road, from Wayzata Boulevard to 6th Avenue North, is set to be fully reconstructed, widened, with turn lane additions to help improve traffic flow along the corridor. Work includes watermain replacement, storm sewer replacement and improvements, and full reconstruction of the pavement surface. Curb and gutter will be added to portions of the roadway along with sections of a center median and street lighting. Additionally, entrances to school parking areas will be reconstructed to better accommodate traffic flow.

**Please note that all scheduling claims are subject to change.*

WEEK OF AUGUST 20

Curb was finished on the south half of the job. Catch basin castings were raised, final grading and last removal limits were completed in anticipation of paving next week. Topsoil and final grading was completed on the north half of the job.

Thank you for your cooperation with traffic flow. Next weeks will be congested as crews work to complete as much of the work as possible. Stay tuned for further updates regarding access needs.

WEEK OF AUGUST 27

Paving on the south half of the project is slated for early in the week. Concrete crews should be in Monday to finish pedestrian ramps and sidewalk. After the base course is paved, topsoil and final grading will take place. Excess material on site is scheduled to be removed as well, so there will be a lot of trucks on site this week.

Signs installation is scheduled for Wednesday and temporary road striping will be completed before school begins next week.

Next week, access to all facilities should come from CSAH 6, as much of the work will be done on the south half of the project. Please use parking lots as much as possible to navigate around construction traffic. Thank you again for your cooperation.

If you have specific access concerns or questions that need to be addressed, please do not hesitate to contact the project hotline at the number below.
