The 2018 Street Improvements Project includes the reconstruction of various streets, storm sewer, and watermain throughout the City of Orono. This includes milling existing pavement sections and overlaying new bituminous pavement on Vine Place as well as Lyric Avenue from Livingston Avenue to Blaine Avenue. Additionally, mill and overlay work with storm sewer replacement and guardrail installation will be performed on Leaf Street from Bayside Road to Watertown Road and Forest Lake Landing. Work to be completed on West Lafayette Road includes watermain and water service replacement, reclamation of the bituminous surface, and construction of curb and gutter in some areas. Construction activities on Wildhurst Trail and Minnetonka Highlands Lane include storm sewer construction, curb and gutter and guardrail or portions of the roadway, and reclamation of the bituminous surface. Lastly, the northern end of Linden Lane will be realigned with some culvert replacement as well.

If you have specific access concerns or questions that need to be addressed, please do not hesitate to contact the project personnel listed at the end.

WEEK OF OCTOBER 1

Restoration was completed on Linden Lane. Preliminary grading was completed on Forest Lake Landing and Wildhurst Trail.

**Please note that all scheduling claims are subject to change.*

WEEK OF OCTOBER 8

Grading will continue all along Wildhurst Trail and Forest Lake Landing with curb and gutter installation to follow closely behind. Notices will be handed out as the schedule firms up and weather clears up notifying residents of more accurate projections. Whenever curb and gutter is officially scheduled, the patching of curb on West Lafayette Road and Minnetonka Highlands Lane will also take place before final restoration and paving in the coming weeks.
