The 2018 Street Improvements Project includes the reconstruction of various streets, storm sewer, and watermain throughout the City of Orono. This includes milling existing pavement sections and overlaying new bituminous pavement on Vine Place as well as Lyric Avenue from Livingston Avenue to Blaine Avenue. Additionally, mill and overlay work with storm sewer replacement and guardrail installation will be performed on Leaf Street from Bayside Road to Watertown Road and Forest Lake Landing. Work to be completed on West Lafayette Road includes watermain and water service replacement, reclamation of the bituminous surface, and construction of curb and gutter in some areas. Construction activities on Wildhurst Trail and Minnetonka Highlands Lane include storm sewer construction, curb and gutter and guardrail or portions of the roadway, and reclamation of the bituminous surface. Lastly, the northern end of Linden Lane will be realigned with some culvert replacement as well.

If you have specific access concerns or questions that need to be addressed, please do not hesitate to contact the project personnel listed at the end.

WEEK OF OCTOBER 8

The final storm sewer structures were placed on Wildhurst Trail. Preliminary road grading was completed on Forest Lake Landing and Wildhurst Trail along with driveway removals and preparation for curb in the coming week. Unfortunately, progress was slowed from the unrelenting rain.

**Please note that all scheduling claims are subject to change.*

WEEK OF OCTOBER 15

The contractor is attempting to schedule curb and gutter construction on Wildhurst Trail and Forest Lake Landing as soon as possible in the coming week, but that is weather and subcontractor dependent. In the mean-time the contractor will complete turf grading and restoration on West Lafayette Road and prepare it and Minnetonka Highlands Lane for final curb patching and final paving in the coming weeks.
