CONTACT

The 2018 Street Improvements Project includes the reconstruction of various streets, storm sewer, and watermain throughout the City of Orono. This includes milling existing pavement sections and overlaying new bituminous pavement on Vine Place as well as Lyric Avenue from Livingston Avenue to Blaine Avenue. Additionally, mill and overlay work with storm sewer replacement and guardrail installation will be performed on Leaf Street from Bayside Road to Watertown Road and Forest Lake Landing. Work to be completed on West Lafayette Road includes watermain and water service replacement, reclamation of the bituminous surface, and construction of curb and gutter in some areas. Construction activities on Wildhurst Trail and Minnetonka Highlands Lane include storm sewer construction, curb and gutter and guardrail or portions of the roadway, and reclamation of the bituminous surface. Lastly, the northern end of Linden Lane will be realigned with some culvert replacement as well.

If you have specific access concerns or questions that need to be addressed, please do not hesitate to contact the project personnel listed at the end.

WEEK OF OCTOBER 15

Curb and gutter was constructed on Wildhurst Trail and Forest Lake Landing toward the end of the week, as well as patches of curb on West Lafayette Road and Minnetonka Highlands Lane. Topsoil grading was also completed on West Lafayette Road.

**Please note that all scheduling claims are subject to change.*

WEEK OF OCTOBER 22

Final paving will occur on West Lafayette Road and Minnetonka Highlands Lane. Upon completion of final paving, final turf restoration will occur and erosion control elements will be removed as the projects are completed. Final road grading will take place on Wildhurst Trail and Forest Lake Landing as soon as the constructed curb has had appropriate time to cure.
