Overview Updates

2020 Street & Utility Improvement

PROJECT OVERVIEW

The City of Plainview is planning the construction of the 2020 Street and Utility Improvement Project, which will consist of the full reconstruction of street and utility (sanitary sewer, watermain, & storm sewer) infrastructure in the following areas:

- Hillcrest Second Addition Reconstruction
- 2nd Street Southwest Reconstruction
- 2nd Avenue NW Storm Sewer Improvements

The project will also include repairs to various catch basins located throughout the city. Construction is planned for the summer of 2020.

Overview Updates

TAP Lighting & Sidewalk Improvements

PROJECT OVERVIEW

The City of Plainview received a Transportation Alternatives Program (TAP) grant from MnDOT to construct street lighting, sidewalk, and bus turnout improvements. The proposed project will include:

- New street lighting along W. Broadway Avenue, from Highway 42 to 7th Street NW
- Sidewalk, bus turnout and pedestrian crossing improvements along W. Broadway Avenue from 5th Street NW to 7th Street NW in front of the school
- New sidewalk along the north side of 3rd Avenue SW from 1st Street SW to 4th Street SW

Street lighting along W. Broadway Avenue will be decorative lighting and will include features for the installation of banners, flower baskets, flags, and holiday decorations.

Bus improvements in front of the school will include curb bumpouts to improve crossing safety at the intersections of 5th, 6th, and 7th Street NW. The school will also be funding the installation of new crossing flashers at the 5th and 7th Street NW intersections, similar to the ones near Kwik Trip and the City Pool along Highway 42.

Traffic along W. Broadway will be detoured for a period of time during construction. The detour plan can be viewed here: [Detour Plan](#)

Construction on the street lighting portion of the project began in the fall of 2019. Construction on the remaining improvements is expected to begin in May 2020.

Construction Communication: Newsletters

2020 Street & Utility Improvement Newsletter

October 21, 2019

Project Schedule:

Planning – Fall 2019

Design – Winter 2019/2020

Construction - Summer 2020

Overview

The City of Plainview is beginning to plan for the 2020 Street and Utility Improvement Project. Currently, the following two areas are being considered for full street and utility (sanitary sewer, watermain, and storm sewer) reconstruction:

- Hillcrest Second Addition
- 2nd Street Southwest

The location map on page 2 shows the areas being considered in more detail.

The first steps in the planning process include the completion of a topographic survey and the preparation of a Feasibility Report. The topographic survey work is scheduled to begin the week of October 28, 2019.

A neighborhood informational meeting is planned for Wednesday, November 6, 2019 at 6pm at City Hall to present information from the Feasibility Report and inform interested residents about the project being considered.

Construction Communication

- Bolton & Menk will have a Resident Project Representative (RPR), Drew Weber, on site every day construction is taking place.
- Question, Comments or Concerns should be directed to:
 - Drew Weber: 507-469-0306
- Limit questions to the contractor, staff isn't always completely in the loop on what is happening, RPR is.
