

Broadway Ave Reconstruction

Open House #3

Join Us!

Please join us for the next open house for the Broadway Ave Reconstruction project! At this open house, the project team will discuss final design updates, construction staging options, and assessments. The meeting will be an open house style with no formal presentation. Come at any time between 5 and 7 pm.

Project Purpose

The City of Rochester is in the final design stage and is planning to begin construction in 2019 on Broadway Avenue (from Civic Center Drive to 13th Street North). This project is intended to begin the transformation of the Broadway Avenue corridor into a significant multi-modal gateway to downtown Rochester and the Destination Medical Center (DMC) Development District. The Broadway Avenue Corridor Study, completed in 2015, set the stage for future improvements that will occur.

Stay Involved

Open house materials will be posted on the website following the meeting: www.reconstructbroadway.com.

WHEN: Thursday, November 15

TIME: 5:00 - 7:00 p.m.

WHERE: 125 LIVE
