

This project is intended to begin the transformation of the Broadway Avenue corridor (from Civic Center Drive to 13th Street North) into a significant multi-modal gateway to downtown Rochester and the Destination Medical Center (DMC) Development District.

CONSTRUCTION UPDATE

North Broadway construction has expanded to the south, resulting in full closure of the roadway between 13th Street and 7th Street. The road is being removed between 10th Street and 7th street this week.

Over the next few weeks, crews will begin reconstructing the street section, including the road base and curb & gutter. These activities will make this section of the project more recognizable as a street and are stepping stones to allowing the road to open for local use later this summer.

Join us the 1st and 3rd Wednesday at 9 AM for the North Broadway Stakeholder meeting. The link for the meeting can be found on the Reconstruct Broadway site, under the [Get Involved](#) tab.

New pedestrian route from the Silver Lake path to North Broadway: With the new road closure, the crossing for pedestrians is now at 12th Street instead of 10th Street.

TIMELINE: CLOSE & REOPEN TO LOCAL TRAFFIC
