

This project is intended to begin the transformation of the Broadway Avenue corridor (from Civic Center Drive to 13th Street North) into a significant multi-modal gateway to downtown Rochester and the Destination Medical Center (DMC) Development District. The Broadway Avenue Corridor Study, completed in 2015, set the stage for future improvements that will occur.

CONSTRUCTION UPDATE

Thanks to cooperative weather, the creation of the detour was completed on time. North Broadway through traffic is now detouring via Silver Lake Drive NE. This detour will be in place through November 2021.

Crews have begun construction on North Broadway between 11 Street and 13 Street. This section of the roadway is completely closed to vehicle traffic and will be until late July 2021. Local traffic and business access for North Broadway in that section will now need to utilize side streets and the mid-block alleys to reach their destinations.

The Silver Lake Trail on the south side of the lake has re-opened with a temporary route for pedestrians and cyclists along 12 Street NE and North Broadway Avenue.

Silver Lake has been restored to its normal level. A second drawdown of the lake might not be necessary. If it does happen, it won't be until June.

The next newsletter will include a "best guess" schedule with an approximation of when construction will be moving through each area on Broadway. This schedule will be updated regularly as work progresses.

OTHER CITY NEWS

RAPID TRANSIT UPDATE

The Rapid Transit Project team will be holding a Station Architecture Webinar on May 27, 2021. The session will include a presentation, followed by a Q&A session.

Please register using the following links:

- [May 27 Webinar 12-1pm](#)
- [May 27 Webinar 5-6pm](#)

A recording and Q&A summary will be posted on the Webinar on the Rapid Transit [Events Page](#). Review the [Project Overview Flyer](#).
