## Project Update

Thank you for your patience throughout the past few months. The contractor made some underground utility corrections earlier this summer and will be completing the remaining items in conjunction with the Farmer Street project. These items include minor grading and seeding, casting adjustments, concrete repairs, and the final lift of pavement.

**This work is tentatively scheduled to be completed in the next 4-6 weeks.**

Project updates will be sent out as work is planned.

## Contacts

Grayson Gavin will be on site and will serve as the primary contract during construction. If you have questions or concerns at any time, please contact Grayson at 507-721-9087 or Drew Weber at 507-469-0306.
