## Overview

The NDDOT in coordination with the City of Valley City is invested in maintaining and improving the quality of the transportation network in Valley City. The preventative maintenance project will consist of a mill and overlay on Main Street W and Frontage Road. ADA ramps will also be reconstructed on the shared use path. This improvement will recover ride comfort, bring ADA into compliance, and create a roadway that will last for years to come.

## Construction Signage

Signs and barricades will be in place during construction to allow for adequate space and safety of the public. Those devices will be placed on **Monday, May 15th** around the closed areas.

## Removals

Starting **Tuesday, May 16th**, crews will be removing curb ramps throughout the median between Main St. and Frontage Road. Many of the existing ramps are incompliant with ADA or in rough condition for users. Replacement curb ramps will be installed throughout the of the project.

## Contacts

**Matt Clevenger will be on site throughout the project and will serve as the primary contact during construction. Matt can be reached at 701-261-5314 or [Matt.Clevenger@bolton-menk.com](mailto:Matt.Clevenger@bolton-menk.com).** Newsletters, such as this one, will be posted to the project website throughout the project duration if needed. If you have questions or concerns at any time, please contact Matt at the number or email address listed.
