

# 2023 Street & Utility Improvement Project

## City of Wabasha, MN

### Meeting Information:

**Thursday, May 26, 2022**  
**4:00 PM to 6:00 PM**  
**National Eagle Center**  
110 Main Street W  
Wabasha, MN 55981

### Overview

The City of Wabasha wants to hear from you! The City is planning for the reconstruction of streets and utilities within portions of the downtown in the summer of 2023. The improvements will consist of the full reconstruction of street, sanitary sewer, water main, and storm sewer. The map below shows the general project area.

The City will be hosting an open-house style meeting for any interested property owners, residents, and business owners. **The meeting will be held at the National Eagle Center Main Street location on Thursday, May 26<sup>th</sup> from 4:00 P.M. to 6:00 P.M.** The meeting will provide an opportunity for residents and business owners to learn about the project and provide their input on current needs or concerns within the corridor and provide input on potential improvements.

As part of the project, the design will incorporate outcomes of the Downtown Streetscape Plan being completed in parallel to this project during the summer of 2022. For more information on this plan and to learn about community engagement opportunities, see the schedule on the back.

We look forward to hearing from you!

If you are unable to attend the meeting, and have questions about the proposed project, please feel free to contact the Project Manager, Katy Gehler at 507-513-9066, or [Katy.Gehler@bolton-menk.com](mailto:Katy.Gehler@bolton-menk.com).

# Community Engagement Schedule

## Street & Utility Improvements and Downtown Streetscape Plan

The City of Wabasha is planning for the reconstruction of streets and utilities within portions of the downtown in the summer of 2023. In conjunction with this project, the city will be completing planning tasks that help to guide the streetscape aesthetic in and around the downtown. These tasks will be completed in parallel with the street project, and the outcomes captured in the Downtown Streetscape Plan. See the specific project website for more details.

### 2023 STREET & UTILITY IMPROVEMENTS

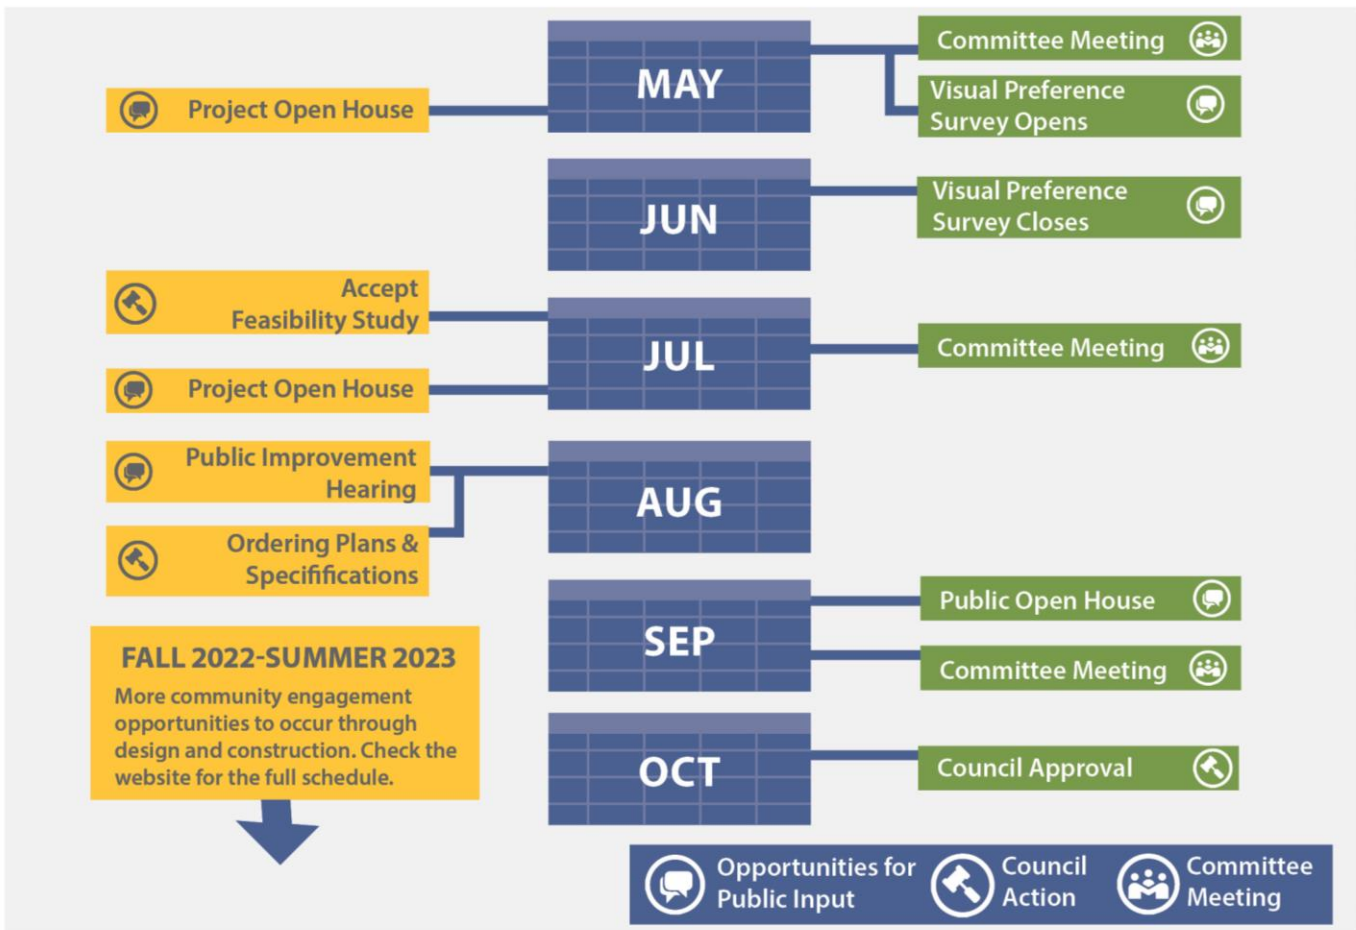

The street improvements will consist of the full reconstruction of streets, sidewalks, sanitary sewer, watermain, and storm sewer.

- Bridge Avenue from 4th Grant Blvd W to Main Street W
- Main Street W from Bridge Avenue to Pembroke Ave
- Pembroke Avenue from Main Street W to 4th Grant Blvd W

### DOWNTOWN STREETScape PLAN

The streetscape plan will consider the following elements in and around the downtown:

- Wayfinding & community entry signage
- Downtown identity & site amenities
- Enhancing underutilized spaces under the bridge
- Strengthening the connection to beach park
- Enhancing trail connectivity along the river

#### How Can I Provide Input?

Project open houses will be tailored to the reconstruction project and those directly impacted by the work. Streetscaping elements will be defined with the Streetscape Plan and incorporated into the final design.

#### How Can I Provide Input?

You can provide input through participation in the visual preference survey and attending the public open house. The Streetscape Steering Committee will be reviewing public input and providing a recommendation to the City Council.
