4:30-6:30 p.m.**

**West St. Paul City Hall
Council Chambers**

1616 Humboldt Ave,
West St. Paul, MN 55118

Open House

You are invited to the first open house for the Wentworth Avenue Reconstruction Project. This is an opportunity to learn more about the project background, proposed reconstruction alternatives, project schedule, and more!

Project Background

The purpose of this reconstruction project is to improve roadway operations, safety, and pavement quality. The project will include the reconstruction of a two-lane roadway with turn lanes, addition

of bicycle and pedestrian facilities, and the construction of drainage improvements and new sanitary sewer.

Wentworth Avenue is an important east-west roadway in northern Dakota County, providing connections to Robert Street from Mendota Heights and South St. Paul. Wentworth Avenue is important to the City of West St Paul because it provides direct access to multiple residential and commercial properties, City Hall, and the Sports Dome.
