

# Wentworth Avenue Reconstruction Project

Delaware Avenue to Humboldt Avenue

## Project Purpose & Need

This project will improve safety, operations, and pavement quality.

*Existing rural roadway*

*Proposed urban roadway*

### Existing Issues:

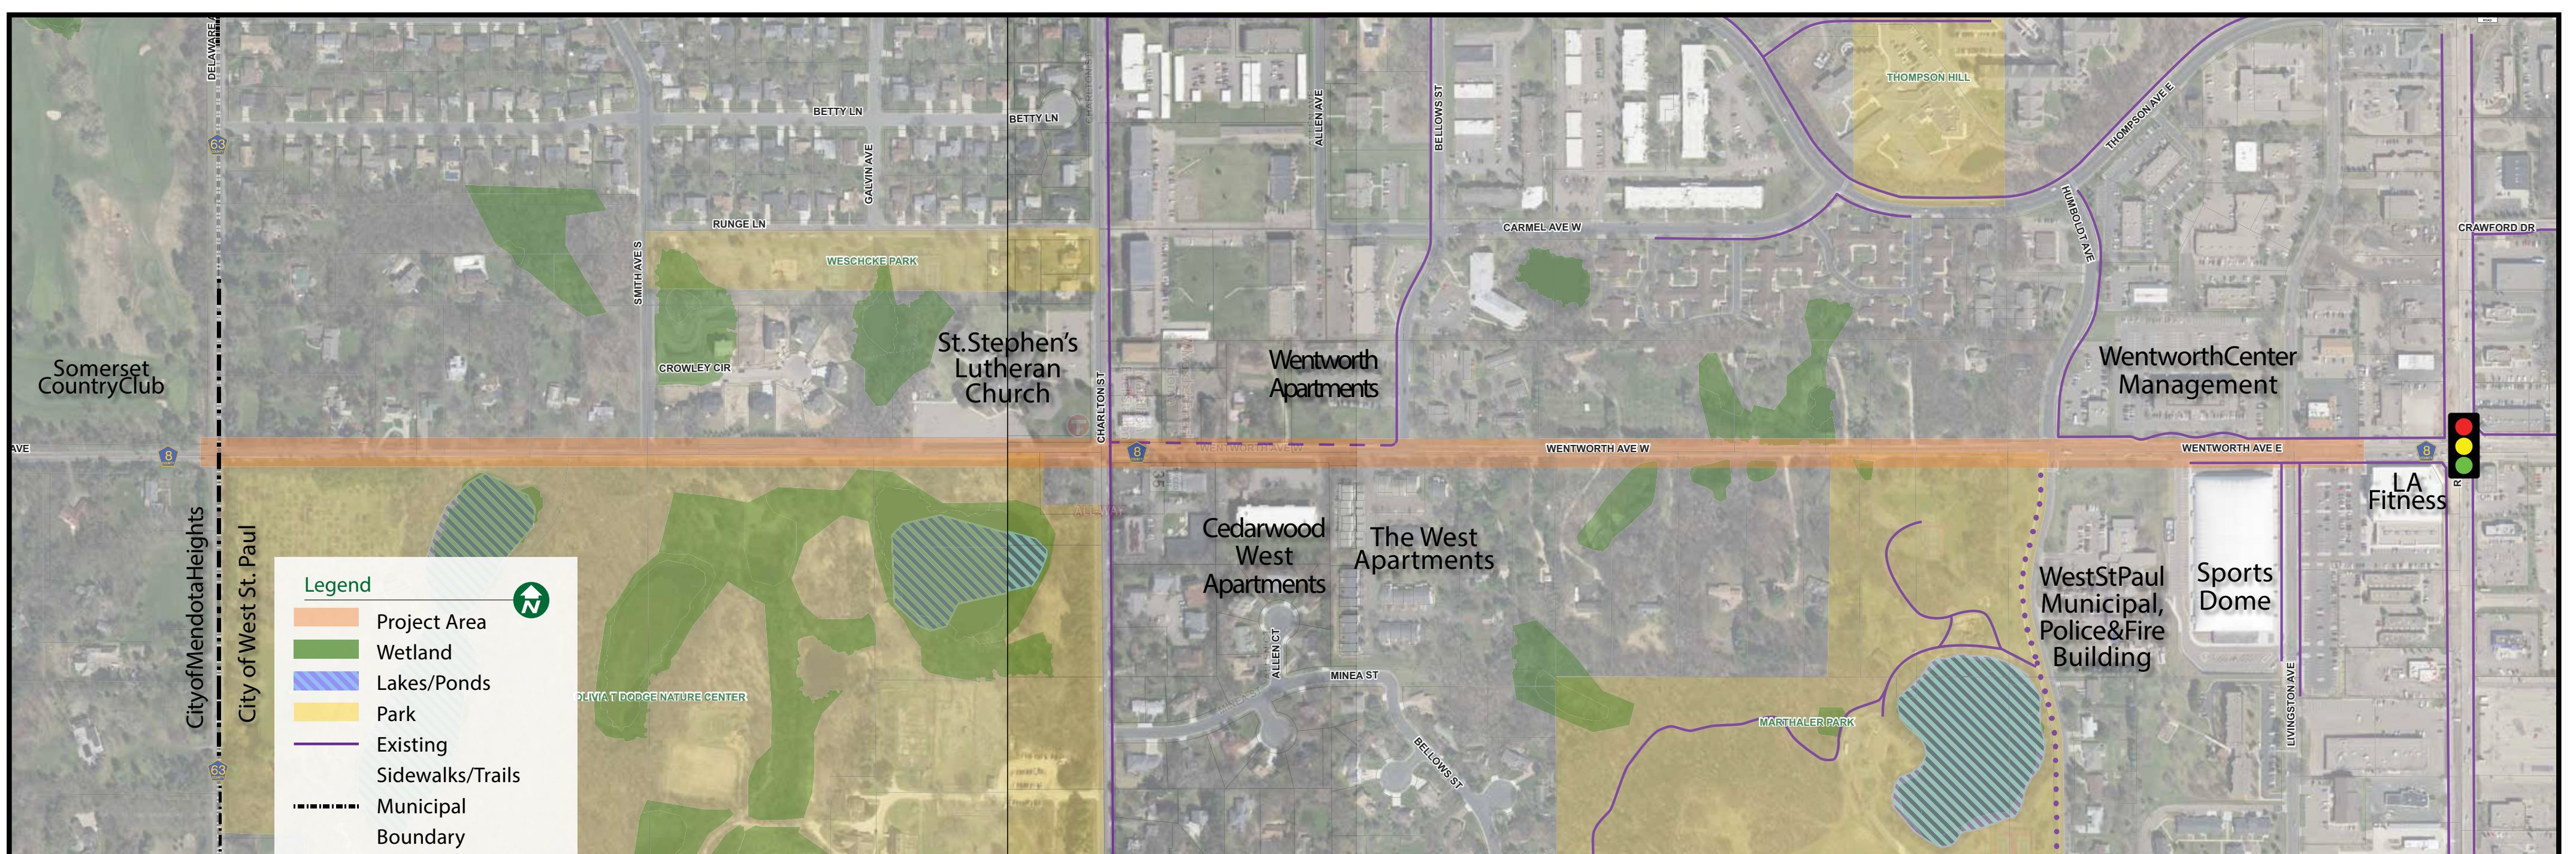

- Poor pavement condition
- Steep slopes
- Lacking pedestrian/bike facilities
- Poor drainage

### Proposed Improvements:

- Curb and gutter
- Adequate shoulder width
- Continuous trail or sidewalk system
- Drainage and utility improvements

## Wentworth Avenue provides:

- An important east-west roadway in northern Dakota County
- Connections between Robert Street, Mendota Heights, and South St. Paul
- Access to residential and commercial properties, City Hall, and the Sports Dome
