## **OVERVIEW**

This project includes the realignment of West Freeway Drive to tie into the existing roundabout. (See reverse side for project layout)

The project was bid, and the City and County have awarded the contract to Forest Lake Contracting, Inc.

The following is the anticipated progress you will see with the project:

1. The Contractor plans to begin tree removals within the project limits starting November 1, 2022.
2. Once the trees are removed, erosion control measures will go in, and the contractor will begin excavating large amounts of muck from the proposed road alignment and filling it back in with sand.
3. The sanitary sewer and watermain will be removed through the project area this fall and be replaced next spring.
4. The contractor plans to complete the muck excavation and replacement by the end of the year. Once this is complete, the project will stop until next spring.
5. Next spring the contractor will return to install sanitary sewer, watermain, storm sewer, curb & gutter, and pave the road to the DNR property limits. The DNR roadway will be reconstructed with a wider and thicker gravel section.

The project is scheduled to be completed by September 2023. Please note that construction schedules and operations are controlled by the Contractor and are subject to change based on weather and construction progress.

## **TRAFFIC IMPACTS**

This road will be closed until the project is complete.

It is anticipated the closure will be in place from October 2022 – September 2023.

Please do not attempt to access the DNR property while the road closed signs are up.

Thank you for your cooperation during this construction project. Please go to the website listed at the bottom of this notice for future updates on this project.

If you have any questions or concerns during the project, please contact Project Manager Jason Cook at [jason.cook@bolton-menk.com](mailto:jason.cook@bolton-menk.com) or call him at 763-200-2444.
