Overview

The City of Willmar is undertaking a construction project to improve the city streets and utilities on Irene Avenue SE, Augusta Avenue SE, & Mary Avenue SE. The project includes road construction, sanitary sewer improvements, water system improvements, and storm sewer improvements.

Construction

With the construction there will be slight delays in traffic and alterations to streets adjacent to the project area. There is a pipe currently running down Olena Avenue SE and is utilized to bypass pump sanitary sewer to accommodate the flow during the first phase of construction. We ask that you refrain from utilizing on street parking during this time.

The tentative schedule is to be complete with bypass pumping by May 26, 2023. As bypass pumping is complete, we will remove the bypass pipe and traffic on Olena Avenue SE should resume with minimum interruptions.

Contacts

Moving forward, all project updates will be provided electronically on the City of Willmar's Construction Project Website, www.WillmarConstruction.com. Please sign up for email and text message updates on the project website. We encourage you to watch the "What to Expect During Construction" video located on the project website for more information on what to expect during the construction process. If special access accommodations to homes is needed or if you have questions or concerns at any time, please contact any of the people listed on the left side of this newsletter. Thank you in advance for your understanding and cooperation with this improvement project.
