323 Woodland Hills Ln  
Brainard, MN 56401  
Phone: 218-828-4232

**Tom Thompson**  
Owner/President  
Phone: 218-820-7478  
E-mail: [tom@tomsbackhoe.net](mailto:tom@tomsbackhoe.net)

## Overview

The City of Willmar is undertaking a lift station and sanitary sewer improvement project to the Eagle Lake sanitary sewer system. This project will reconstruct Lift Station 7 along US 71/MN 23, and Lift Station 8 along 47<sup>th</sup> Ave NE, and rehabilitating Lift Station 9 along North Eagle Lake Road.

## Project Timeline

The following is a tentative schedule for the construction in each of the project areas:

### Lift Station 7:

- All major work complete
- Seeding and final restoration to be completed in the Spring of 2025

### Lift Station 8:

- All major work complete
- Seeding, tree planting, and final restoration to be completed in the Spring of 2025
- Residents with additional concerns should contact Resident Project Representative

### Lift Station 9:

- All work complete
- Remaining seeding and final restoration work to be completed in the Spring of 2025

Additional notices similar to this one will be sent out as construction progresses. If construction is delayed due to inclement weather, assume it will proceed the following day.

Construction impacts for each project area are listed below:

### Lift Station 7:

- No anticipated impacts to residents or motorists

### Lift Station 8:

- No anticipated impacts to residents or motorists

### Lift Station 9:

- No anticipated impacts to residents or motorists

## Construction

### Work Area

It is very common on these types of projects that area residents (especially children) become quite curious about the work the Contractor is performing. We ask that you please be respectful of and stay well clear of construction zones. Many hazards and dangers exist from heavy machinery, trenches, loose material, confined spaces, hot asphalt, etc. and often times are not recognizable by the general public. The Contractor has responsibility to ensure safety on the project and within the construction area.

### Punch List

After the project is substantially complete, the contractor will be provided with a “punch list” of minor defects or uncompleted tasks. That work may take several weeks to completed following substantial completion of all three lift stations. This punch list work will require both your cooperation and patience: please contact the RPR for any issues you feel have not been addressed.

## Contacts

All project updates will be provided electronically on the City of Willmar’s Construction Project Website, [www.WillmarConstruction.com](http://www.WillmarConstruction.com). Please sign up for email and text message updates on the project website. We encourage you to watch the “What to Expect During Construction” video located on the project website for more information on what to expect during the construction process. If special access accommodations are needed or if you have questions or concerns at any time, please contact any of the people listed on the left side of the front of this newsletter. Thank you in advance for your understanding and cooperation with this improvement project.
