PROJECT STATUS AND UPCOMING WORK

- Work completed this past week included installation of sanitary sewer from address 13125 and approaching 13345.
- Starting the week of May 22, the contractor will be installing watermain east of 5th Street and under County Road 45. After completing this stretch of watermain, they will start working their way west from 5th Street with watermain installation. We estimate they will get to approximately address 12965.
- Construction progress is always dependent upon weather and other factors and can vary from what is estimated.
- We know the construction work creates extreme inconveniences for getting to and from your properties. Thank you for your patience while the work is underway. Residents are being notified as the work approaches their driveways.
- Please see to the care of children and other vulnerable individuals during construction and be aware of the movement of construction equipment while traveling so that everyone will be safe until the work is completed.
- Should you have any questions, please feel free to contact Kevin Bittner, City Engineer. His contact information is provided on the left-hand side.
