

# Storm Sewer & Street Improvements Project Newsletter

Newsletter No. 5 – August 10, 2020

## Construction:

- Street Rehabilitation
- Storm Sewer
- Sanitary Sewer
- Watermain & Services
- Stormwater Retention Pond

## Construction schedule:

Start: May 2020

Finish: October 2020

## City of Wyndmere

City Hall  
P.O. Box 220  
451 4<sup>th</sup> Street  
Shannon Utke  
701-640-7748

## Bolton & Menk, Inc.

3168 41<sup>st</sup> Street South  
Suite 2  
Fargo, ND 58104  
Phone: 701-566-5339  
Fax: 701-566-5348

## KPH, Inc.

9530 39<sup>th</sup> Street S  
Fargo, ND 58104

## Project Timeline

Progress is being made! Last week, KPH began installing geotextile fabric and aggregate base for the new roadway. Prior to this drain tile was installed 2' below the concrete curb and gutter. This will help alleviate water near the pavement section and will be a huge factor in the longevity of the roadway.

In the upcoming weeks, All Finish Concrete will begin installing curb and gutter as well as replacing driveways that were removed on 1<sup>st</sup> St and Date Ave. Border States Paving will be on site once curb and gutter are complete to install and bituminous pavement. If all goes well, 1<sup>st</sup> St and Date Ave should be paved by time the next newsletter comes out in 2 weeks! During this time KPH will move to phase 2 of the project and begin underground work on Fir Ave. **Thank you for your patience while we improve your community!!**

## Contacts

**Grant Kuper will be on site throughout the summer and will serve as the primary contact during construction. Grant can be reached at [grant.kuper@bolton-menk.com](mailto:grant.kuper@bolton-menk.com) or 701-540-7444.** Informational newsletters, such as this one, will be posted to the project website (<https://clients.bolton-menk.com/wyndmereimprovements/>) throughout the summer. Hard copies will also be available at City Hall, the Post office, Lincoln State Bank, and Wyndmere Oil. If you have questions or concerns at any time, please contact Grant Kuper at the phone number or email address listed.

## Alert

### Detour and Access

During construction, access through the construction zone will be difficult and/or limited depending on the construction activity taking place. Local traffic should obey road closed signs and find alternate routes around the active construction zone.

When possible, the contractor will provide temporary gravel for driveway access within the construction site. However, direct driveway access may be limited during the day when excavation and other construction activity is occurring adjacent to driveways. In addition, when concrete curb, walk, and driveways are being constructed, access to driveways will be restricted for extended periods.

Wet weather will also make access difficult for periods of time. Please monitor the weather throughout the summer and plan accordingly. If rain is forecasted, residents are advised to park on adjacent streets to ensure that vehicles do not get trapped in driveways or stuck in mud.

Please also be advised that if you choose to drive on the closed road, there can sometimes be construction debris or other items that can damage vehicles. Driving through the construction site is at your own risk. If you are concerned about access during construction, or have questions, please contact Grant Kuper at 701-540-7444.

### Disruptions to Sewer and Water Service

Water and sewer services will be provided at all times with limited interruptions. However, planned shutdowns and disruptions will occur. Affected residences will be connected to a temporary water supply system until the new piping is installed and tested. This may result in a decrease in water pressure. Residents will be provided a notice delivered to their front door.

### Garbage and Mail

Garbage and recycling collection will continue its regular schedule during construction. You should set your garbage and recycling containers out as you normally would. During times when the garbage truck is unable to access the front of your property for any reason, the contractor will label and move them to an accessible location for pickup and return them to you after collection.

Mail delivery will continue during the project. The contractor may elect to set up temporary mailboxes in a centralized location that will be accessible to the postal worker. You will be notified if your mailbox location will be affected.

## Construction Safety

### Work Area

It is very common on these types of projects that area residents (especially children) become quite curious about the work the Contractor is performing. We ask that you please be respectful of and stay well clear of construction zones. Many hazards and dangers exist from heavy machinery, trenches, loose material, confined spaces, hot asphalt, etc. and often are not recognizable by the public. The Contractor has responsibility to ensure safety on the project and within the construction area. Any direction from the Contractor regarding safety must be heeded; likewise, if you observe an unsafe condition please report it to the Construction Representative immediately.

**Please take time to check out the project website at**
