If you wish to receive a direct email with the newsletter, you may sign up for this also on the website.

PROJECT STATUS AND UPCOMING WORK

- For the week of August 12, expected work includes the following:
 - Watermain and storm sewer installation will continue working west on Fremont Lane.
 - Watermain on Terrace Drive and Fremont Drive will be temporarily shut down on Tuesday for 4 to 6 hours while a watermain valve is installed on Oak Street and a hydrant installed on Pine Street. We apologize for this inconvenience but it is a necessary step in establishing the temporary watermain system for watermain replacement.
- Please see to the care of children and other vulnerable individuals during construction and be aware of the movement of construction equipment so that everyone will be safe while the work is being completed.
- The project will certainly create inconveniences and frustrations for residents, so we ask for your patience while work proceeds with this important project.
- Should you have any questions, please feel free to contact Kevin Bittner, City Engineer. His contact information is provided on the left-hand side.
