Weekly updates on the project will be posted to the Bolton & Menk website at: www.lakefremont2024.com

If you wish to receive a direct email with the newsletter, you may sign up for this also on the website.

PROJECT STATUS AND UPCOMING WORK

- For the week of October 28, expected work includes the following:
 - Paving of the bituminous driveways will begin Monday. Because of the number of driveways, this work may carry into Tuesday.
 - Paving of bituminous wear course will occur on Wednesday, weather permitting. There is a forecast for rain next week, which could impact the schedule.
 - Grading work behind the curb will be ongoing until completed. Seeding and mulching will occur after grading is completed, but grass growth is not expected until spring.
- The assessment hearing is scheduled for November 18th at City Hall at 7:00 p.m. All property owners will receive an individual mailed notice in the coming week that will provide more information and show the total amount of your assessment.
- We appreciate everyone's patience during this construction process.
- Please see to the care of children and other vulnerable individuals during construction and be aware of the movement of construction equipment so that everyone will be safe while the work is being completed.
- Should you have any questions, please feel free to contact Kevin Bittner, City Engineer.
