STAY INFORMED

Weekly updates on the project will be posted to the Bolton & Menk website at: www.clients.bolton-menk.com/zimmerman2020/ and on the City of Zimmerman website at: www.zimmerman.govoffice.com/.

If you wish to receive a direct email with the newsletter or have other questions, please contact City Engineer Kevin Bittner or City Administrator Randy Piasecki.

CURRENT WORK

Ongoing Work:

- Replacement of Watermain in Alley A
- Grading work on Alley C

UPCOMING WORK

Anticipated Work for the Week of May 4:

- Replacement of Watermain in Alley A.
- Storm Sewer Construction on 1st Avenue and 3rd Street

There will be times when the construction work disrupts driveway access. These will be minimized as much as possible, but there will be work that requires you to remove your vehicles from your driveway and park away from construction activity. You will be notified by the Contractor or the Construction Project Representative in advance of this requirement. The Contractor hopes to complete the bulk of the work by the end of June, depending on weather and hopefully good health by all involved in the project.

Also, since school is not in session and construction can be an attractive nuisance, please see to the safety of children during construction.

Please contact City Engineer Kevin Bittner or Construction Project Representative Zach Naslund if you have any questions. Their contact information is provided in the margin.

Thank you for your patience as this project progresses!
